

Incurable AIDS healed

Life

Chipoya Charity, Lumwana West, Zambia

Hi, I was born in 1973; I spent most of my time in alcohol drinking. I was very rude to my parents and had no acknowledgement of God in my life.

Because of my alcoholic activities I got involved in prostitution and I contracted an incurable disease. I was suspected of HIV/AIDS and developed severe stomach pains. I fainted and became unconscious on six occasions. I was taken to almost all the hospitals in the country but no cure was found for my problem.

My parents and other relatives lost hope, and thought that I would no longer live. Because of this I loved death more than life. Leaders from the Revival Fellowship Zambia did not stop preaching to me but continued visiting my family and me.

I never listened to the teaching, but because of their persistence, I finally believed, agreed to be baptized by full immersion, and received the Holy Ghost with the evidence of speaking in other tongues.

I was prayed for and immediately God healed me from all my diseases. I am now born again and fellowship at Lumwana West assembly in Mwinilunga district.

I rejoice daily in my Lord and I thank Him for saving me.
