

# AIDS healed in prayer line

Life

Sister Ceselia - PNG

Ceselia has had AIDS for nine years and went out to the prayer line at the Goroka Rally in 2017 to pray for a healing of the AIDS.

After prayer she felt really well again!

Then she realised that her fractured finger that she had had for a long time and couldn't move was now moving freely too!

After she had this photo taken she went straight away to give her name and details to the brothers from the church sitting at the administration desks and then travel on a bus or truck to the river for baptism and prayer to receive the Holy Spirit.
