

Now HIV negative

Life

Leader Samson Peter - Port Moresby, PNG

I got a very big sickness. I feel that I will definitely die. I came to Port Moresby and blood tests confirmed I was HIV positive. So I repented, was baptised and received the Holy Spirit on 26/01/02. Later two blood tests proved I was HIV negative. My strength returned and I worked carrying heavy backpacks for trekkers on the Kokoda Trail.
