God's power healed my sick AIDS

I lived in Porgera, at the same time I used drink beers, play pokies, and go around for discos, hunting for women.

One day I got a big sick, I start to lose my body, it was full of sores and my hair become like a pussy cat. So I hurry straight to the hospital to get treatment and what the doctor told me before they give me the medicine they say, "We check your blood." He says "You've got sick AIDS, which we cannot give you the medicine, you couldn't get healed from the medicine."

So I was unhappy that I will lose my life so I went back, and my one-body, my family and my friends, they just sat around my side. They weep and they cry because I will lose my life on this bed.

I was thinking, I didn't even prepare my life for that judgment day… One of my brothers just came and witnessed me the Lord. To come to the fellowship he's attending, the Revival Centre's of PNG. He saw some miracles taking places to the people. The people with God's power pray over them and they got healings. I came and observed the services. Some got the big TB, cancers and sick AIDS, and when they were baptized they got healings from that.

So I got this idea too, the same thing, that would happen to me, so I just raised my hand up and they took me to the big water. They put me in the water and the first miracle I got, all the sores on my body, they just run away. Then on the third month on date 26th 2010 I received the Holy Spirit. I enjoy my salvation and fellowship in the Porgera house meeting.

Brother Tom, Porgera, PNG
