

# Alcohol poisoning

Life

Deacon Jim - Port Moresby, PNG

I got sick with alcohol poisoning. I could never move, always in a wheelchair from 1987 until 1998. I go looking at all sources - hospitals, magic from my PNG people, Private Doctors - but they couldn't find a cure. The power of God healed me in 1998 when I got baptized and received the Holy Spirit. I never get sick any more with anything. I am happy to worship my God.
