

All other Mothers died

Life

Sister Anne, Job and Brother Michael Timi, 2004

God bless everyone, My name is Anne Timi. I come from a small village call Baue in PNG. I was brought up in a Christian discipline family, went to school, completed my education and was offered a job during my final year of studies.

During my career life, I go out partying and drinking with my girlfriends. I met my wonderful husband at a night club, thinking that I will also find happiness in marriage, however marriage turned bitter and sour for me. I continued in my marriage even though it was bitter and sour for me because it was my own decision to get married to him.

In September, 1997 during my pregnancy I suddenly started bleeding heavily. I went to the hospital and the doctor scanned my baby and found out that my baby was formed outside the uterus.

There were three (3) things the doctor told me;

1. I had 24 hours only to live
2. Emergency operation was the only hope to either save my baby or myself
3. I was an anaemic - shortage of blood

After hearing all these messages, I was really scared to die even though be a so called Christian.

I rang up my husband and told him about the doctor's results and statements. With his small faith in God, he said he will invite his boss who is a Spiritfilled to pray for me. He had witnessed his boss been healed by God from a serious illness. His boss has witnessed to him at several occasions but deep inside him, he always say that "I'm born Catholic and I will die Catholic". When we were faced with this situation he forgot about be born Catholic and die Catholic, he was desperate for a miracle to take place as he always see people healed when his boss pray for them in his office.

I thought to myself, I'm a church goer or Christian, been to 12 churches, got baptised six times searching for God why can't God hear my pray.

Anyway, I went home in the evening, the Spiritfilled couple came and shared God's simple Gospel message of repent, baptise and Receive the Holy Spirit quoted in John 3 : 3 - 5. I was desperate for healing that evening and made up my mind not to be part of their Revival Fellowship group. However, when he was sharing God's Word, I forgot about healing and I believed the Word of God and when they prayed in tongues, God healed me instantly in the evening when we said AMEN, the bleeding stopped.

Next morning I went to the hospital and the doctor scanned me and we could see my baby back inside the uterus. The doctor wanted to further confirm the miracle that God has performed so he called the other five (5) doctors to confirm it. I was admitted to the ward just for doctors' monitoring and observations. While in the hospital, I have never been visited by my best friends, drinking mates, sport mates, etc only Spiritfilled brethren came and shared God's Word with me. I continued observing the Revival Fellowship while in the hospital.

I was discharged from the hospital when I was seven months into my pregnancy. I repented, got baptised by full immersion on 11th January, 1998 in Mt Hagen, PNG and three (3) weeks later I received the Holy Spirit by speaking in tongues. This is my seventh (7th) and final baptism and thirteenth (13) church. Finally I found the True Love, Joy, Peace, and happiness that I have been searching for in this world in the Word of God.

My husband or wanbodi got baptised on 8th February, 1998.

I gave birth to my son on 18th March, 1998 where five (5) doctors were monitoring me at my bedside but thank God everything was possible through His plan, Love, Grace and I delivered my son without any complications.

I give Praise, Honour and Glory to this wonderful, miracle working God who according to His plan and purpose, saved my son and my life and extended our lives from 24 hours according to the doctor's knowledge to today, 18th years. Secondly, I did not go through the Emergency operation but I'm grateful and thankful that I went through the Spiritual circumcision of the heart and received the Holy Spirit so now I can worship God in Spirit and in Truth (Joh 4: 23 24)

I thank God for blessing me with a loving, caring husband, Br Michael Timi, a son, Job Timi and a Spiritual big loving family of Spiritual brethren. Finally, I no longer scare of dying, I am looking forward for that day when the Lord returns and call all His chosen faithful people home to rule and reign with Him forever, Amen

Sister Anne Timi - Port Moresby, PNG
