

Cervix cancer healed

Life

Sister Esther Raphael - Goroka, PNG

My name is Sister Esther Raphael and I am from Goroka, PNG.

I repented and was baptised on 8 September 2002 and I received the Holy Ghost on that date. (Proof and evidence of Mark 16:17, Acts 2:4 and the other scriptures supporting the work of the Holy Spirit.)

My life testimony goes like this. I came out of a church and I went through a marriage problem and my husband was a drunkard and he beats me up. I also had a cervix cancer.

Then I heard the Word of God about receiving the Holy Spirit so I repented, was baptised and received the Holy Spirit.

I was healed from the cervix cancer and now I am enjoying my salvation.

God healed my marriage. Also my husband was healed of appendix and heart problems.
