

Serious truck accident

Life

Area Leader Sese Marase - Port Moresby, PNG

I repented, got baptized and I received the Holy Spirit. I was very happy! In 2003 I was working in an LPG gas tanker carrying 11,000 litres of gas. We were travelling in the tanker when it went off from the top of the hill in Port Moresby. There was no place to stop. We had no steering, no brakes - nothing. We just came down very fast. I thought, I have to speak in tongues! If I was not in the Lord I should have died. We smashed our big truck and bumped into a big tree. The truck was a complete write off. We should have had a **very** big explosion but God is good. It was the biggest miracle I have seen in my life. He totally protected me and my driver.
