

Enjoying our salvation

Life

Leader Bernard Saisum - Kimbe, PNG

I was living a worldly adulterous life, womanizing, drinking and all those things. I went to university and I got all this knowledge then I got employed and got married. I thought my life would be wonderful.

I had three wonderful children and then problems started creeping up in my life and my wives and I were quarrelling every time. I worked in the mining industry on 28 day rotating shifts and that didn't allow me to settle with the family. I also worshipped in the local church. They asked me to get baptized and receive Jesus as my personal savior, which I did in 2001, but that didn't help either.

In 2006 I had two severe incidents. One was after heavy drinking when I was involved with my in-laws who put some local potion or witchcraft in my beer and after I drank it I almost died. The other was in 2007 when I got drunk again and set alight my family house. It got burned down and my wives and I separated for nine months.

On 11 January 2009 I attended the Revival Centre Fellowship. When I heard the altar call I put up my hand. I got baptized by immersion and received the Holy Spirit and spoke in other tongues. Both my wives were baptized and spirit filled on that same day. That was a miracle done by the Lord.

I am glad that I am spirit filled, my old life is gone and we are all enjoying our salvation.
