

Now I listen to my parents

Life

Sister Magdence Philip - POM, PNG

My life testimony goes like this. When I was small I used to listen to my Father and Mother but then my life changed. I went through many influences and I joined my friends smoking, chewing betel nut and doing all those type of things which were not good. I was disobedient to my parents and I was a very bad child. I couldn't change my life and I didn't listen to my Father and my Mother. In our home there was no harmony in the family. I just did everything I wanted to do.

When I was ten my Mother decided to get baptized, repented and received the Holy Spirit. She came back and told us there is a way out but I couldn't listen to her because I didn't want my life taken over. I used to dispute her and she would say "That's OK". She used to pray for me.

After that I used to go through so many problems and sicknesses. So I told her "Sorry for everything and now I will follow you". In 2012 I went with her to the Revival Centre Fellowship at Port Moresby and after I heard the Word of God I repented, got baptized and received the Holy Spirit speaking in strange tongues. I saw that my life was truly changed and I am enjoying my fellowship and I couldn't disobey my Father and my Mother again. Now I listen to them. Now I am with the Music Ministry and I am really enjoying myself.
