

I got a pain, a sickness in my head. I went in Goroka Base Hospital and they did not tell me any answer. I go to Port Moresby Hospital and they scanned my head and I pay 400 Kina (about \$A180) for scanning me and they did not find any answer, so I came back to my village.

I stay in my village for some years and I always go around and play village game like rugby. I was a drunker; I always drink beer and walking around in night clubs. I smoke - not drugs but like Cambridge. I always smoke and I chew betel nut and play gambling around my village.

I stay there, I stay like this and one brother, who fellowships Revival Fellowship of Papua New Guinea, he come and witness to me. So he take me one day, on Friday 17th of January 2007, and we went to a house meeting in my district.

I got there and one Leader come and witness me. I told him “Nothing can stop me to say no, so take me and baptise me” so he baptised me.

FIRST MIRACLE

First miracle was I spoke in tongues I Corinthians 14:2, Acts of Apostles 2:4 with the Bible evidence of speaking in tongues.

SECOND MIRACLE

Second miracle was I came, baptise, and God healed my sick pain in my head.

I stay five year in the Fellowship and I enjoy my salvation.
