

Truck accident protection

Life

Area Leader Sese Marase - Port Moresby, PNG

Before I came to the Lord I did things listed in the Bible in Galatians 5:19 [sinful desires]. In 1999 I was very sick in hospital, medicines never healed me, and fear came into my life that I might die - I had no hope.

My wife was told the Gospel - repent, be baptized, receive the Holy Spirit - and she got baptized and received the Holy Spirit, speaking in tongues. I persecuted her, I fought with her, I punched her and after all these things she did not retaliate because she had the Holy Spirit.

I repented, got baptized and I received the Holy Spirit and I was instantly healed by God. I was very happy!

In 2003 I was working in an LPG gas tanker carrying 11,000 litres of gas. We were travelling in the tanker when it went off from the top of the hill in Port Moresby. There was no place to stop the vehicle. We had no steering, no brakes - nothing. We just came down very fast. I thought, I have to speak in tongues! If I was not in the Lord I should have died.

It was the biggest miracle I have seen in my life. We smashed our big truck and bumped into a big tree. The truck was a complete write off. We should have had a very big explosion but God is good. He totally protected me and my driver.
