

Lameness healed

Life

Toa - PNG

Crutches no longer needed!

Toa went out into the prayer line to pray for God to heal his lameness as he was unable to walk without crutches for the last 5 years.

He was completely healed in the prayer line and had no difficulty walking up the steep steel stairs (beside him in the photo) to give his healing testimony.

After he had this photo taken he went straight away to give his name and details to the brothers from the church sitting at the administration desks and then travel on a bus or truck to the river for baptism and prayer to receive the Holy Spirit.
