

Womb cancer healed!

Life

Sister Dorothy Mar - Kimbe , PNG

This woman is sister Dorothy Mar, a primary school teacher from Kimbe Assembly. At the 2015 Revival Centres of PNG Rally Dorothy came up to me and asked whether a man from the Canberra fellowship was there as she wanted to thank him for talking to her about God.

The man and his daughter had gone to the Lae rally in 2013 and had spoken to her on the side of the road. She came to the rally and received the Holy Spirit.

She was actually on her way to Port Moresby to have an operation to remove a womb cancer when she was spoken to by the man.

When she was checked out by doctors at Port Moresby for her pre-op, they found no sign of the cancer. In fact they said her womb was as clean as a sixteen year old! She laughed and said "I have three teenagers!"
